

Investor Presentation

January 2025

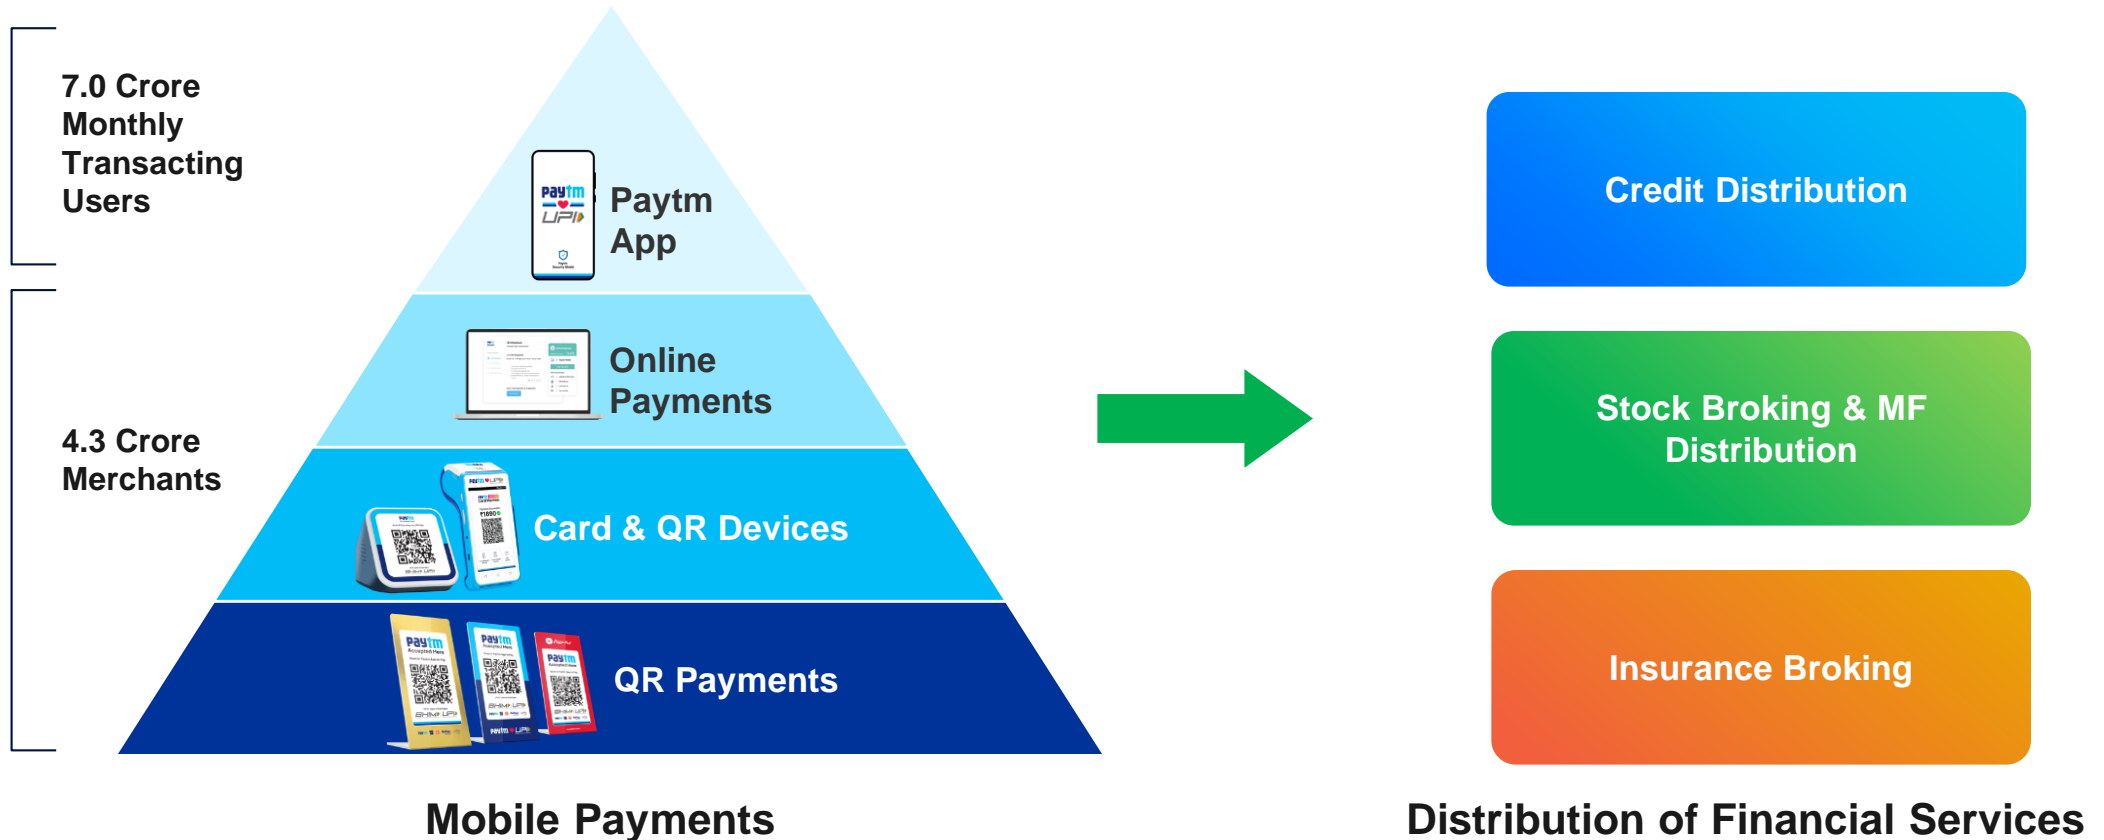

To bring Half-a-Billion Indians to the Mainstream Economy through Technology-led Financial Services

We enable mobile payments for consumers and merchants – online and offline, small and large – and distribute financial services to them

We leverage our homegrown AI platform to serve India's large underserved market

of Subscription Paying Merchants

Annual Gross Merchandise Value of Merchant Payments

Loans* Distributed Through Our Platform

* Includes Personal and Merchant Loans only

We have demonstrated strong growth in revenues and consistent improvement in profitability

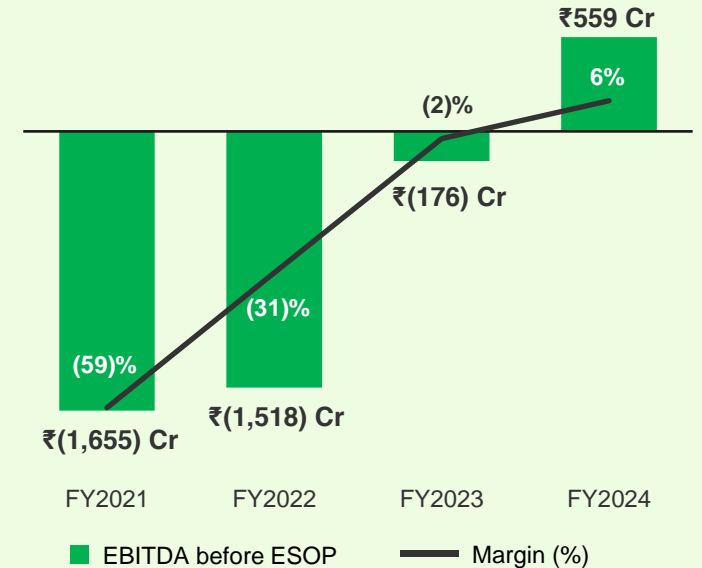

Operating Revenue

Contribution Profit

EBITDA Before ESOP and Margin

Payment Services: We make money on Payment Processing and Merchant Device Subscription

Net Payment Margin

=

Payment Processing Margin

Payment Processing Margin = Gross fees charged to the merchant – Payment processing charges

- We make 5-6bps payment processing margin on GMV, including UPI incentive; Excluding UPI incentive, we make more than 3bps
- On UPI GMV, we make 2 to 3 bps and on non-UPI GMV*, we make 15 to 18 bps
- Improvements in payment processing margin of non-UPI instruments resulted in growth in net payment margin

* Non-UPI GMV includes Credit cards, debit cards, EMI, net banking and other instruments

+

Merchant Subscription Revenue

- We pioneered Soundbox, a device for voice confirmation for payments, resulting in dominant position in merchant acquiring
- Continue to address merchants' needs through innovative product launches, supported by a large distribution and service network
- Merchant pays monthly rental for various services, primarily for devices
- Potential market of 100mn merchants in India; large subset of this might be using devices

Financial Services: Driving monetization by distribution of Loans, Wealth products and Insurance

Low penetration across products offer large growth runway

Financial Service Revenue

Loans

Equity

Insurance

Loan Distribution

- We help various lenders disburse loans to Paytm's consumers & merchants
- Our lending partners provide the balance sheet and underwrite loans
- We earn sourcing fee on the loans distributed and collection incentives where we help the lenders in collecting the loans
- In line with current regulatory framework and industry practice, we offer Default Loss Guarantee (DLG) to lenders

Merchant Loans:

- Working capital loans with daily repayment offered to device merchants
- Over 50% of the customers are repeat customers

Personal Loans:

- Instant personal loans with the best customer experience

Other Financial Services

- We offer equity broking, and distribute insurance and mutual funds

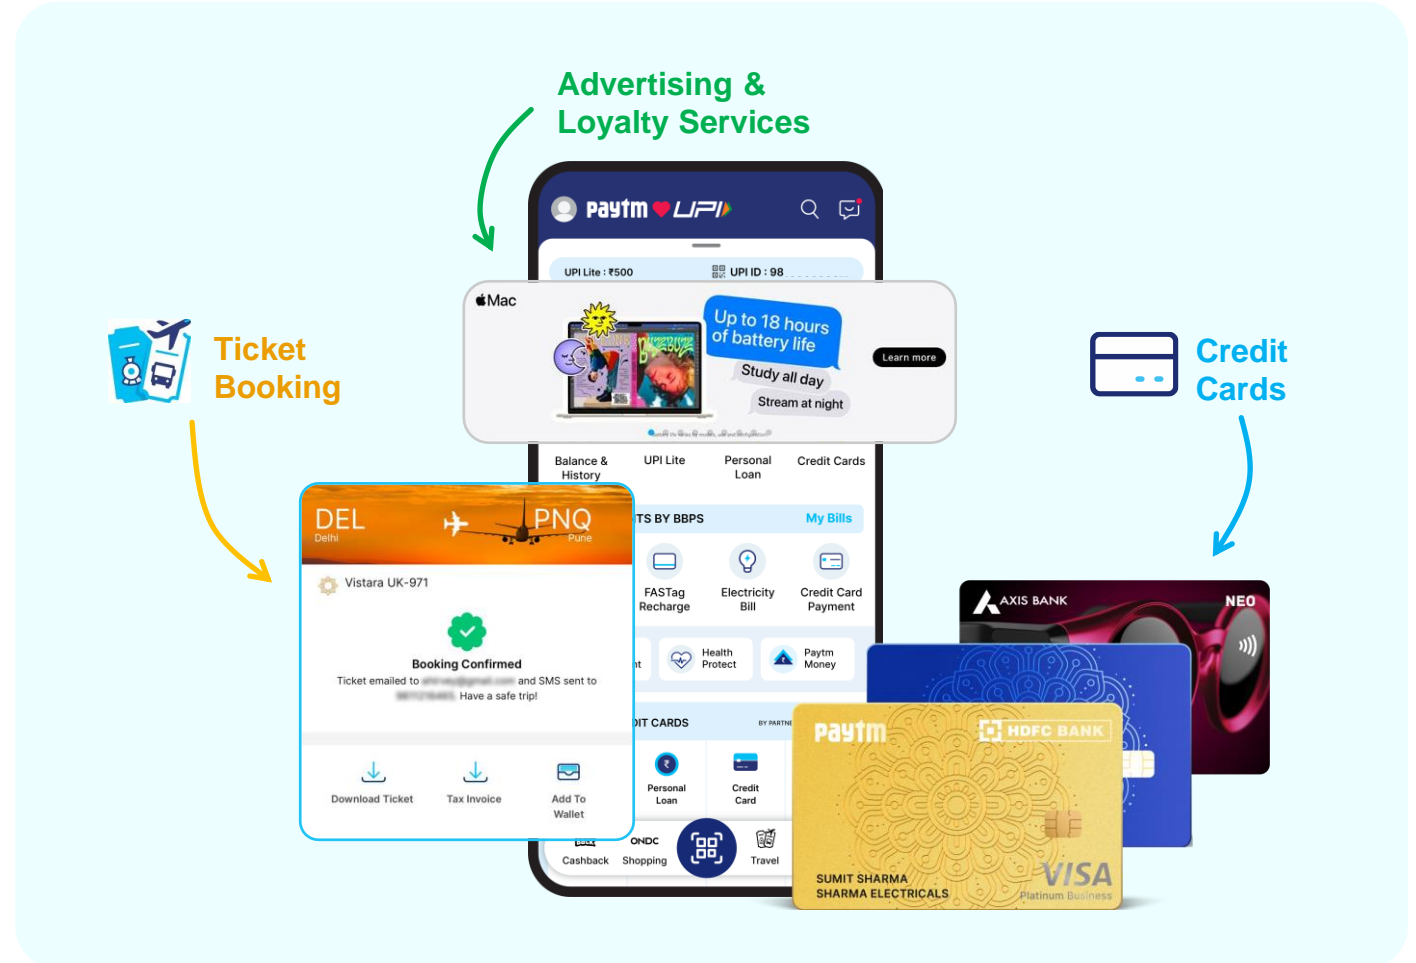

Marketing Services: Additional monetization by driving app traffic to the merchants

Paytm app is a destination for our merchants to get more business from our consumers

- We help merchants sell their tickets, deals and gift vouchers etc.
- We offer advertising, marketing loyalty services to various enterprises and distribute credit cards for our partners
- Revenue from Marketing Services is driven by the number of app consumers availing these services

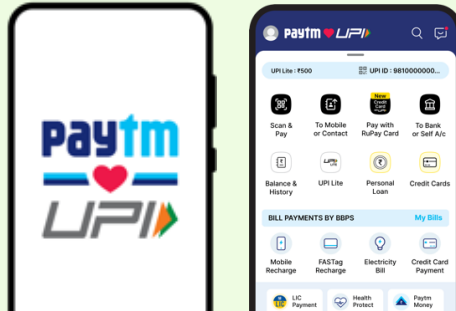

Marketing Service Revenue

Compliance First: Stringent focus on a compliance-first approach across our businesses

Customer acquisition

Drive growth in consumer base by innovative products, & disciplined marketing investments

Merchant payment innovations

Continue to be a market leader with merchant payment innovations, including new devices & aggregation of various MDR-bearing payment instruments

Financial Services Distribution

Increase high margin financial services revenue by increasing penetration of financial services distribution

Leverage AI to improve efficiency:
Continued automation of various operations to improve efficiency

Annexure

Expected ESOP charges based on currently issued ESOPs

Expected ESOP Cost (₹ Cr)	Q1	Q2	Q3	Q4
FY 2025	247*	218*	182*	204
FY 2026	176	171	99	96
FY 2027	93	87	25	24

* Actual ESOP costs for the quarter

As of January 17, 2025	(in Cr)
Basic shares outstanding	63.7
ESOPs vested and unexercised	0.2
ESOPs granted and unvested	3.3
ESOPs available for distribution	0.7
Estimated fully diluted shares	67.9

Note:

- The above table illustrates expected ESOP cost for all unvested ESOPs granted so far, as of January 17, 2025.
- The cost assumes all granted ESOPs will vest and no new ESOPs will be granted. For any lapses of unvested ESOPs, normally on attrition, the cost of unvested ESOP recorded so far is reversed in that quarter. Actual charges might be different based on incremental issuances as well as lapses.
- For new ESOP grants, the total estimated charge would be the number of options granted times the fair value per Option, which is based on the share price on the day of the grant, among other factors.
- Movements of share price after the date of the grant do not affect the ESOP charge for already granted ESOPs.
- The charge is front-ended with approximately 38% in Year 1, 28% in Year 2, 18% in Year 3, 11% in Year 4 and 5% in Year 5.

Operating Revenue

(in ₹ Cr)	Quarter Ended			Change		Nine Month Ended

Total Balances (excluding PML funds)	8,439	8,311	8,108	9,999	12,850

Definitions for Metrics & Key Performance Indicators

Metric	Definition
GMV	GMV is the rupee value of total payments made to merchants through transactions on our app, through Paytm Payment Instruments or through our payment solutions, over a period. It excludes any consumer-to-consumer payment service such as money transfers.
Monthly Transacting User (MTU)	Number of unique users in a particular calendar month who have successfully completed a transaction on the Paytm App or have used the Paytm for Business App
Contribution Profit	Contribution profit is a non-GAAP financial measure. We define Contribution profit as revenue from operations less payment processing charges, promotional cashback & incentives expenses, connectivity & content fees, contest, ticketing & FASTag expenses & logistic, deployment & collection cost of our businesses.
Net Payments Margin	Payments revenues (including other operating revenue) less payments processing charges
EBITDA before ESOP cost	EBITDA before ESOP cost is a Non-GAAP financial measure. We define EBITDA before ESOP cost as our profit for the period, before depreciation & amortization expense, income tax expense, share based payment expense, finance costs, other income, loss for the period from discontinued operations, exceptional items, IPO expenses & share of profit/(loss) of associates/joint ventures.

This Presentation is prepared by One 97 Communications Limited ("Company") and is for information purposes only without regards to specific objectives, financial situations or needs of any particular person and is not and nothing in it shall be construed as an invitation, offer, solicitation, recommendation or advertisement in respect of the purchase or sale of any securities of the Company or any affiliates in any jurisdiction or as an inducement to enter into investment activity and no part of it shall form the basis of or be relied upon in connection with any contract or commitment or investment decision whatsoever. This Presentation does not take into account, nor does it provide any tax, legal or investment advice or opinion regarding the specific investment objectives or financial situation of any person. Before acting on any information you should consider the appropriateness of the information having regard to these matters, and in particular, you should seek independent financial advice. This Presentation and its contents are confidential and proprietary to the Company and/or its affiliates and no part of it or its subject matter be used, reproduced, copied, distributed, shared, retransmitted, summarised or disseminated, directly or indirectly, to any other person or published in whole or in part for any purpose, in any manner whatsoever.

The information contained in this Presentation is a general background information of the Company and there is no representation that all information relating to the context has been taken care of in the Presentation. We do not assume responsibility to publicly amend, modify or revise any information contained in this Presentation on the basis of any subsequent development, information or events, or otherwise. This Presentation includes certain statements that are, or may be deemed to be, "forward-looking statements" and relate to the Company and its financial position, business strategy, events and courses of action.

Forward-looking statements and financial projections are based on

the opinions and estimates of management at the date the statements are made and are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those anticipated in the forward-looking statements and financial projections. Representative examples of factors that could affect the accuracy of forward looking statements include (without limitation) the condition of and changes in India's political and economic status, government policies, applicable laws, international and domestic events having a bearing on Company's business, and such other factors beyond our control.

Forward-looking statements and financial projections include, among other things, statements about: our expectations regarding our transaction volumes, expenses, sales and operations; our future merchant and consumer concentration; our anticipated cash needs, our estimates regarding our capital requirements, our need for additional financing; our ability to anticipate the future needs of our merchants and consumers; our plans for future products and enhancements of existing products; our future growth strategy and growth rate; our future intellectual property; and our anticipated trends and challenges in the markets in which we operate. Forward-looking statements are not guarantees of future performance including those relating to general business plans and strategy, future outlook and growth prospects, and future developments in its businesses and its competitive and regulatory environment. These forward-looking statements represent only the Company's current intentions, beliefs or expectations, and no representation, warranty or undertaking, express or implied, is made or assurance given that such statements, views, projections or forecasts in the Presentation, if any, are correct or that any objectives specified herein will be achieved.

We, or any of our affiliates, shareholders, directors, employees, or advisors, as such, make no representations or warranties, express or implied, as to, and do not accept any responsibility or liability with respect to, the fairness, accuracy, completeness or correctness of any information or opinions contained herein and accept no liability

whatsoever for any loss, howsoever, arising from any use or reliance on this Presentation or its contents or otherwise arising in connection therewith. The information contained herein is subject to change without any obligation to notify any person of such revisions or change and past performance is not indicative of future results.

This document has not been and will not be reviewed or approved by a regulatory authority in India or by any stock exchange in India. No rights or obligations of any nature are created or shall be deemed to be created by the contents of this Presentation.

Use of Operating Metrics

The operating metrics reported in this Presentation are calculated using internal Company data based on the activity of our merchants, consumers and other participants in our ecosystem. While these numbers are based on what we believe to be reasonable estimates of engagement, for the applicable period of measurement, there are inherent challenges in measuring usage across our large online, offline, in-store and mobile presence. The methodologies used to measure these metrics require significant judgment and are also susceptible to algorithm or other technical errors. We regularly review our processes for calculating these metrics, and from time to time we may discover inaccuracies in our metrics or may make adjustments to improve their accuracy, which can result in adjustments to previously disclosed metrics. In addition, our metrics will differ from estimates published by third parties due to differences in methodology.

We have converted financial amounts from ₹ millions into ₹ Cr and hence there could be some totaling anomalies in the numbers.
